Transformation in Africa through the study of God's Word

A programme for everyone:

Explore is an affordable self-study programme. There are no academic entrance requirements, and the examinations are optional. Study on your own, at your own pace, or work in a small group with others. This programme is ideal for developing as a Christian in the midst of a busy life.

The benefits of doing Explore:

- gain a deeper understanding of God's Word
- grow in your understanding of both the Systematic & Biblical Theology of the Bible
- grow personally as a believer
- live a more effective Christian life in your home, your church, and your community
- develop your skills as a leader in your local church

How the programme works:

You may begin the first module, EXPLORE the Bible, at any time, but there are fixed examination periods for all modules held annually in February, May, August, and November.

On enrollment, you will receive a workbook containing the study material for the module you are doing. Apart from the workbook and a Bible, you do not need any other books. We suggest that you set aside 5 hours per week for devoted study. If this is too much, you may want to spread the module over two terms.

Examinations are not compulsory, although we recommend them as an aid for serious study. Successful completion of the examinations of all 8 modules will result in the awarding of the Explore Certificate at our annual George Whitefield College Graduation ceremony.

We want people from all walks of life and church backgrounds to have access to Biblical Theological education. Whether you wish to study for your own enrichment, or whether you want to be equipped to serve more effectively in your local church, by studying the Explore discipleship material you will gain a deeper understanding of God and his plan of salvation for the world.
